# OCEAN

SILESTONE SERIES

---

## Color in movement

---

Ocean is synonymous with movement, as the colors flow from one side to the other, creating a natural appearance similar to that of exotic granites that can be mined but with all the advantages of Silestone®.

Dive through 6 colors especially designed to create a unique and natural feeling that will give a new and distinctive look to your home.

# Arctic

## Clarity in Movement

As the lightest color in the series, Arctic incorporates translucent cream color details and movement to reveal the volume of the material. It is ideal to enhance room brightness and spaciousness.

↻ Up To 325cm x 159cm

Available ↗ Jumbo ✨ Polished

## Bering

---

---

### **Earth and fire, nature's basic elements**

---

Bering incorporates intense earth tones and light veins running from one side to the other providing a natural and warm appearance.

---

🕒 Up To 325cm x 159cm

Available  Jumbo  Polished

# Hudson

---

---

## The elegance of gray

---

Hudson, with a predominantly gray base and small brown veins, conveys elegance and simplicity, but without losing the naturalness and movement that characterize the series.

---

⊕ Up To 325cm x 159cm
